OUR 3 GREEN MEPS HAVE:

- » Led the Parliament's work fighting tax-dodging

- » Fought for binding targets on climate change
- » Secured investment for some of our least well-off communities

PROUDLY EUROPEAN

Green Party MP Caroline Lucas was one of the founders of the People's Vote movement, and we are proud to have led calls in Parliament for a second referendum. We celebrate and defend the right to free movement, and have constantly championed the rights of EU citizens in the UK and UK citizens in the EU. Vote Green to Remain and change Europe.

ACTION ON CLIMATE CHANGE

The movement for climate justice has never been stronger and Greens are leading it across the continent. We are facing a climate emergency. We need action to protect our children's future. Vote Green for bold climate action.

VOTE FOR REAL CHANGE

Our political system is broken. It has failed to fix the inequality and insecurity that fuelled the Brexit vote. We must listen to the reasons people voted to leave, and heal divisions. We must end the current political chaos. Vote Green for real change.

Green Party

“By voting Green you will elect a Green MEP who will fight to keep the UK in the European Union. Green MEPs make a positive difference: for urgent action on the climate emergency and a fairer economy. Vote for a positive future on 23rd May – vote Green.”
